- Headquartered in Kennett Square, PA
- **Genesis HealthCare (GHC):** GHC provides a variety of post-acute and long-term care services, including specialized Memory Support and Senior Living Communities.
- **Genesis Rehabilitation Services (GRS):** GRS touches the lives of ~40,000 patients every day through physical, occupational, speech and respiratory therapy.
- **Genesis Physician Services (GPS):** GPS focuses on providing high-quality medical administrative, clinical, and practice management oversight to Genesis facilities. The group consists of dedicated Medical Directors, as well as full and part-time attending physicians, nurse practitioners, and physician assistants.

Specialty Units

PowerBack

100% ShortStay. Aggressive, highly personalized - designed to get patients home sooner

Transitional Care Units (TCU)

A rapid recovery option for patients requiring post-acute rehab and medical services due to illness, surgery or injury

Memory Support (Alzheimer's)

Offers a safe, secure, home-like environment with consistent staff to promote relationships and stable family atmosphere

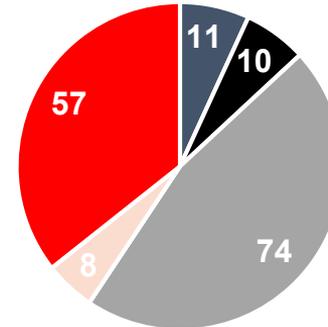

Ventilator Unit

Designed for patients who need short-term or continuous ventilator care or rehab

Dialysis

On-site for patients requiring treatment for end-stage renal disease along with skilled care (includes bed-side dialysis)

Clinical Specialty Unit Breakdown by Type

■ PBR ■ Vent ■ TCU ■ Dialysis ■ Memory Support

Total Specialty Units: 160

Information Technology Structure

Genesis operates its own data warehouse, and has experienced data integrative service and product management teams available to integrate online platforms into the Genesis EHR system, *PointClickCare*.

All systems are HIPAA-compliant
